

How Not to Die by Michael Greger

How Not to Die by Michael Greger focuses on preventing common diseases through nutrition and lifestyle choices. The book argues that many leading causes of death can be reduced through healthier daily habits, especially plant-focused eating.

Main Ideas:

- **Preventive Nutrition:** Food choices strongly affect long-term health.
- **Whole Plant Foods:** Fruits, vegetables, beans, grains, nuts, and seeds are emphasized.
- **Chronic Disease:** Better habits may lower risk of heart disease, diabetes, and some cancers.
- **Daily Habits:** Consistency matters more than short-term dieting.
- **Exercise and Lifestyle:** Movement, sleep, and stress control also matter.
- **Evidence-Based Approach:** Recommendations are based on scientific studies.

Overall Message:

Many diseases can be delayed or prevented by making healthier choices every day, especially through diet and lifestyle.
